

Measles

Symptoms:

- **fever**
(temperature of 38°C or above)
- **cough**
- **runny nose**
- **rash**
(usually appears on head and neck first and spreads to rest of body)

If you think you or your child has measles:

1. Phone your GP
2. Keep your child out of childcare or school
3. Get information by searching 'HSE measles'

Keep up to date with free vaccines

Vaccine 1: 12 months at GP

Vaccine 2: Junior infants (at school) or from GP (Sligo, Leitrim and Donegal)

If your child missed their MMR (measles, mumps and rubella) vaccine, contact your GP and see [immunisation.ie](https://www.immunisation.ie)
